

Draw a straight line from point **A** to point **B**, then from point **C** to point **D**. How do they look?

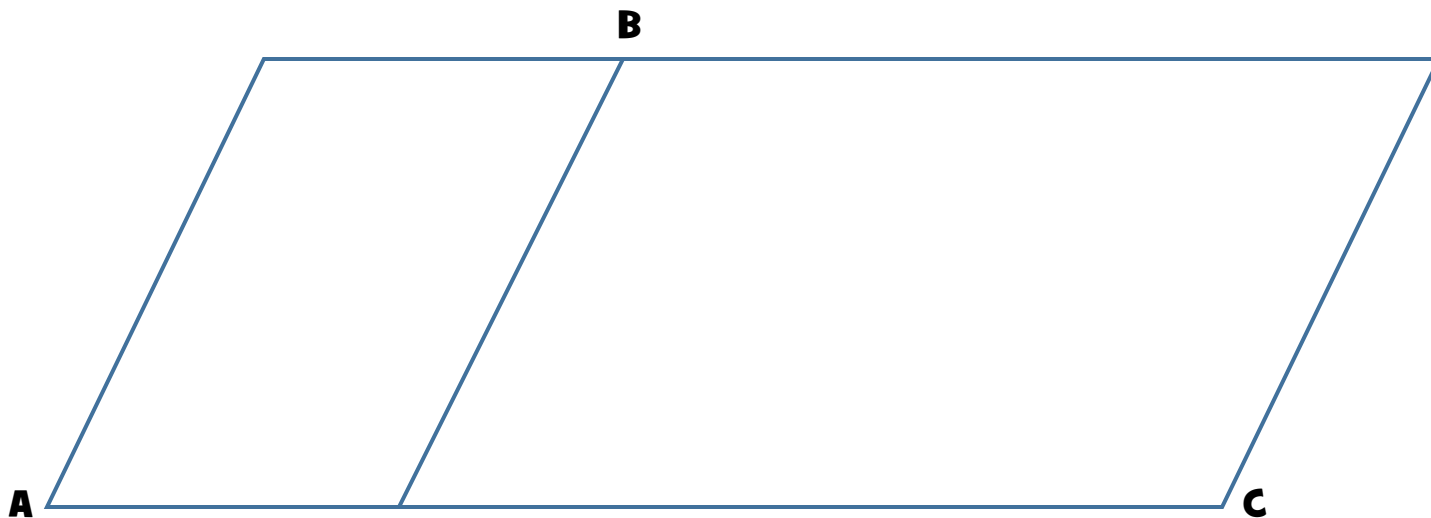

Draw a straight line from point **A** to point **B**. Then draw another from point **C** to point **D**.

Which new line looks longer? **Measure** both to find out!

Draw a straight line from point **A** to point **B**. Then draw a straight line from point **B** to point **C**.

Which new line looks longer? **Measure** both to find out!
